

# Tom Christian, Front-end Developer

I am a creative web developer from Camden Town, London currently exploring the world of responsive web design and Hybrid mobile web app development. In my spare time, I manage and develop one of the most popular premium forum theme businesses in the world.

## PROFESSIONAL EXPERIENCE

### **Front-end Designer, Audio Network** July 2015–March 2016

Seven month contract tasked with the rebrand & conversion of a pre-existing website into a responsive solution powered by Bootstrap & SASS. Incrementally delivered in two-week sprints with key decisions arising from extensive A/B & multi-variant testing.

### **Front-end Developer, Concise Media Design** 2012–July 2015

Three year contract developing iOS & Web hybrid apps for conferences around the world. Based in New York and London focused on delivering award winning apps, bespoke functionality & games to global clients. Apps were deployed onto fleets of iPads delivered to audiences of 500-1000 for clients such as - Adidas, Accenture, BoA, Shell, Goldman Sachs, Morgan Stanley and JP Morgan.

### **Front-end Developer, Web Infinity** July 2011–September 2011

Three month contract at VLI (now Web Infinity) in Reigate, Surrey. Working primarily with ASP.NET and jQuery to create responsive websites for clients such as NetApp, Iomega and UK Gigs Online.

### **Front-end Developer, Invision Power Services** 2009–2011

Multiple contracts spanning a three-year period delivering corporate community forum themes to clients including NBC, Warner Bros, Skype, Roxio, Intuit, NHL, Michael Buble and Baltimore Ravens.

### **Front-end Developer, Skinground** 2006–2010

Freelance design specialising in user-interface design and development created in 2006. Clients included Fightstar Music, Marti Pellow and Transverse Styles.

## FORMAL EDUCATION

### **University of West England, Bristol** 2009–2012

B.Sc with honours in Web Design.

### **Brockenhurst College** 2007–2009

Five AS/A-Levels.
